RETHINK RESILIENT FLOOR REPLACEMENT BONA RESILIENT SOLUTION

Introducing the Bona Resilient Solution. An innovative, sustainable and highly effective system to renew and extend the life of linoleum, PVC, vinyl, PU, rubber or LVT floors.

Commercial flooring requires a high degree of durability whether dealing with high traffic, frequent spills or rolling of heavy equipment. Keeping your facility up and running is one of your top priorities and Bona can help. Finding an effective solution to extend the life of your floors with added durability is a responsible solution. Floor renewal is a new yet quick and simple alternative to achieve your goal without having to remove and install new flooring once your existing flooring becomes worn. With both chemical and wear resistance properties, your renewed floors will stand up to the toughest situations.

CHEMICAL RESISTANCE (DISINFECTANTS)

WEAR RESISTANCE

CASE STUDY - Train floor renewal

China Railway Rolling Stock Corporation (CRCC) located in Beijing China, operates one of the largest and most technologically advanced railways in the world. With billions of passenger trips each year, the demands of a highly durable floor is their top priority. After discovering the high-wearing benefits of the Bona Resilient Solution, the floors were renewed bringing back their original luster while most importantly adding a layer of durability to withstand heavy foot traffic. In addition to the durability benefits, it takes CRCC only 5 hours to completely renew the floors on one coach versus days to install a new floor. After two years of real-life in-field testing, CRCC is rolling out the Bona Resilient Solution throughout its' entire network.

POTENTIAL CAUSES OF DAMAGE TO FLOORS

RENEWING WITH THE BONA RESILIENT SOLUTION OFFERS THE FOLLOWING **ADVANTAGES OVER REPLACING:**

- Significant downtime savings
- Substantial cost savings
- Considerable carbon footprint reduction
- Limitless design customization
- Improved durability attributes
- Enhanced hygiene properties

RETHINK RESILIENT FLOOR REPLACEMENT

Renew and extend the life of the floor with a new durable surface using only the clear coat solution or transform the floor completely, adding endless design customization with the colour coat solution.
